Professional Summary

Computer Engineering student building a strong foundation in full-stack development through the MERN stack and PostgreSQL, complemented by an AI/ML internship integrating an AI assistant into a live product. Eager to bring that combination of web and applied AI experience to a Full-Stack Developer role.

Education

Tribhuvan University - Thapathali Campus

Bachelor of Engineering in Computer Engineering

2022 - 2026

Technical Skills

Programming Languages: HTML, CSS, JavaScript, PHP, Python, C, C++, SQL

Libraries and Tools: React.js, Node.js, Express.js, Django, MongoDB, PostgreSQL, Git, GitHub, VS Code

Experience

AI Intern at Alpinist Studio

AI/ML

May 2026 - August 2026

Node.js, Express.js, Python

- Contributed across the stack of an AI-powered HR Assistant, from backend integration to UI.
- Designed and built APIs linking the AI model to the application's data layer.
- Developed UI components to present the assistant's responses to end users.
- Preprocessed data to support model input/output pipelines.
- Partnered with the team to test and refine the assistant's functionality.

Projects

ITKhoji

IT Services Marketplace Platform

February 2026 - March 2026

MongoDB, Express.js, React.js, Node.js

- Designed a marketplace connecting users with IT freelancers, featuring search and listing tools.
- Built RESTful APIs with role-based access control and JWT authentication.
- Modeled MongoDB schemas and developed a responsive React.js interface for listing management.

BeautyKart

E-Commerce Platform

March 2026 - April 2026

MongoDB, Express.js, React.js, Node.js

- Developed an e-commerce application for beauty and cosmetic products end-to-end.
- Implemented a shopping cart, checkout flow, and secure user authentication system.
- Created a dynamic React.js storefront backed by Express.js and Node.js APIs.

Certifications and Trainings

MERN Stack Training at Let's Learn

Full-Stack

November 2025 - February 2026

MongoDB, Express.js, React.js, Node.js

- Completed hands-on MERN stack training, building applications from the ground up.
- Practiced REST API design, authentication, and CRUD operations through guided projects.
